

TRADE TOKEN TOPICS

— Monthly Publication for Trade Token Collectors —

MERCHANT TOKEN

COLLECTORS ASSOCIATION

This letter is to announce the intent of METCA to resume publishing as a monthly trade token newsletter under the auspices of a new editor-publisher, Bary D. Bender, METCA #3.

This project is being undertaken because of the numerous queries by collectors and non-collectors alike, who wish to see METCA resume publication.

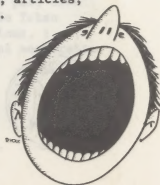

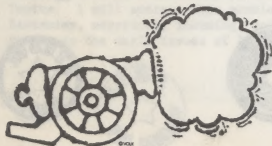

While in the care of the past editors and publishers, Ray and Rita Nadreau, METCA proved to be an extremely popular and viable monthly merchant token publication, complementing the major national publication (TAMS), yet fulfilling a need for more emphasis on merchant tokens.

As the new editor-publisher my initial intent is to fill that void collectors have experienced since December, 1975, when Ray and Rita terminated this publication, by resuming publication of the monthly Trade Token Topics. My goals align with the organization's initial purpose, which I would like to reiterate to those who may have forgotten and to those who may be new to METCA.

"METCA is an association formed to assist in the unification of all persons interested in the collection, classification, use, and preservation of merchant tokens, to the end that this aspect of token collecting will be more enhanced as a hobby and bring the respective collectors of same into a closer token fellowship."

Although METCA and Trade Token Topics, the official publication, will be devoted primarily to trade tokens, collectors of all types of tokens, i.e., telephone, parking, tax, soap, transportation, and others, are encouraged to become a part of METCA, for it is in this way, through new contacts and correspondence, that each of us may add to our respective interests.

It is the intent, through this media, to provide news, articles of interest, pictorials, classifieds and topics encompassing the whole realm of merchant token collecting. Naturally, this publication will only be as good as the input it receives from the membership, thus, articles, rubbings and token-related news are solicited and welcomed.

TTT is the official publication of the Merchant Token Collectors Association and is published monthly in Seattle, Washington. Mail address: 1416 Third Avenue, Seattle, Washington, 98101. Bary Bender, Editor-Publisher.

Membership in METCA is not restricted to age, race, creed or interest. It is especially important to encourage junior members to sustain a growing interest in our hobby and to ensure a viable membership for the future.

Trade Token Topics will be mailed on the first of each month to all members of METCA. Dues will be \$7.50 per calendar year. Every METCA member is entitled to a free ad of four lines in each issue provided it is different each time. Members may join at any time and are entitled to all copies of Trade Token Topics for that year. Latter half year members may join for \$4.00, entitling them to the last six issues. A member in good standing is deemed to be a member who conducts his token affairs consistent with practices recognized as honest and upright, as judged by related associations of this type.

Display Advertising Rates Per Issue:

Full Page	-	\$12.00
Half Page	-	\$ 7.50
Quarter Page	-	\$ 4.00

Ads placed for three issues or more will receive a twenty percent (20%) discount. Yearly and half-year rates for display advertising will receive a twenty-five percent (25%) discount. Prices quoted are for a maximum of 100 words; add 5¢ per word on copy exceeding 100 words. Make all checks and money orders payable to Merchant Token Collectors Association. Mail address: 1416 Third Avenue, Seattle, Washington, 98101. Deadline for all copy is the 20th of each month preceeding issue. It is requested that ads of a lengthy nature or mail bid sales be clearly typed. Regardless of which manner you present your ad, please make it legible. The publisher does not accept responsibility for any correspondence mailed to any address other than this one.

As an editor-publisher and collector my goal is to promote the token collecting interest in general and serve the myriad needs of the collecting fraternity deemed necessary to ensure a worthwhile publication.

The \$7.50 membership fee for METCA will be for calendar year 1977 (January through December). Because of the resumption of METCA all members joining this year will receive a bonus issue (December 1976). This will get the ball rolling and facilitate bookkeeping purposes for the new year.

November, then, will constitute a month of regaining old membership as well as getting the word out to new collectors that METCA is back and is accepting dues for the year to come.

Due to the number of address changes, deaths, inactive members, and change of interests since METCA's inception it would be advisable if each person would fill out a new application form to get the roster up-to-date. If I fail to reach everyone that I should, please accept my apology.

With the lull of the past year, and the fact I am embarking in a new capacity we can expect a period of adjustment during the transfer of responsibility. Furthermore, it will take time and patience on the part of all of us to regain lost membership, iron-out new publishing techniques, and generally restore this publication to the popularity and usefulness it achieved under Ray and Rita's direction.

As editor I will be receptive to your comments, suggestions, and criticism, and, in turn, I will expect your contributions to make this publication beneficial to the hobby.

EDITOR'S ECHOES

Knowing the tremendous growth of interest in token collecting and the rather new interest in postcards that complement our hobby, it is my intent to introduce deltiology (study of postcards) to this publication.

While collecting postcards of street scenes of small towns in your token collection or finding a postcard of a confectionery shop of which you have a token of is not new to many of us, nevertheless, it comprises a new feature of Trade Token Topics.

Although this publication is merchant token oriented, it will be a METCA policy to recognize other areas important to the collector, as well as those areas that directly complement the hobby. In this light postcard swaps are invited with your token ads.

Perhaps a comment or two regarding the past five years operation is in order. Presently, I am faced with resuming publication of Trade Token Topics, a task I am looking forward to, however, I have some misgivings at present as how best to clean up some business of the past. It is my fervent desire to somehow get yearbooks out of the past five years or sell individual copies of the sixty issues of Trade Token Topics. I will address this problem as well as other problems, i.e., fantasies, mavericks, indexing, and tightening the numerical membership roster in the early issues of 1977.

SOMETHING NEW

METCA will be housed at 1416 Third Avenue, Seattle, Washington, 98101. A third-floor room where I am employed in the stamp and coin business will be revamped at a modest cost for METCA. It will not be fancy, but, more important it will give METCA a home in downtown Seattle where members can feel free to contact me during normal working hours and a place to store the bulk of our materials.

I can be reached by phone at 1-206-624-4440 or 1-206-624-4441 Tuesday through Saturday, September 1st through April 15th. From mid-April until September 1st the same hours will prevail expect I will be in the shop Monday through Friday. This new service will hopefully be useful to METCA members wishing to call in special notices or ads if they are easily conveyed.

Members who arrive in Seattle on business or pleasure, please feel free to contact me at METCA headquarters. Ray Nadreau is only a few blocks away and he will serve as a consultant in the year to come. Both of us would be glad to meet you. There are quite a number of METCA members in Seattle who are in constant contact with one another. I see most of them quite regularly and many of us would welcome you to fellowship with us if you are in town.

Congratulations, Bary!

Thanks for taking over METCA!

I will work close with Bary — even do some ad composition and camera work for him for a year to get him started. My print shop is three blocks from his store. It will be Bary's show, but I will be looking over his shoulder for a while.

MERCHANT TOKEN

METCA

COLLECTORS ASSOCIATION

EDITOR'S ECHOES

To those of you who may not have known, fellow METCA member Kendall Ballard, sustained a loss of over 1,000 different postcards from Idaho in the Teton dam burst earlier this year. His five-year collection of postcards were completely destroyed when the floods came.

Kendall's token collection came out of his home in a block of mud and slime, however, they have cleaned up fairly well. The aluminum tokens sustained some corrosion but have cleaned up, too. The Ballards are very lucky that their home is still intact. Two feet of water ran through the kitchen and living room and left the house in an extreme mess, but structurally okay. Many of the neighbors had to destroy their homes.

After losing all his postcards I am sure Kendall would sincerely be interested in purchasing any Idaho postcards you may wish to sell.

* * *

Hugh Hartman, Idaho collector, enjoys collecting embossed drug bottles. J. W. Baum collects pin back buttons and cigar bands. Others have expressed a collecting interest in bank checks, advertising thimbles, paper checks (good fors), etc. This material is tangential to our emphasis on trade checks, however, I feel we can find a place in Trade Token Topics for these interests. The small collectibles take no more time to root out in our search for tokens, so why not keep an eye out for these items, too. These secondary interests may be noted in display and classified ads.

* * *

I received a nice call from John Mutch, Idaho token collector and catalogueur, who intends to put out a rather large listing of Idaho mavericks in the near future. Hopefully, METCA will be able to publish the list as a special bonus issue in the early part of 1977. I will be contacting John soon to get some clarification on this matter. The list will certainly go a long way in helping fellow collectors in quickly recognizing mavericks from the state of Idaho. With the help of John and other Idaho collectors we could make a bonus issue devoted entirely to Idaho trade checks and other exnumia. This could provide the impetus for future bonus issues devoted to individual states.

* * *

Many thanks to Montana collector and catalogueur, George Gould, for completing the task of indexing the first five years of Trade Token Topics. The index will be provided to members at a later date.

* * *

I am extremely grateful with the tremendous response from former METCA members in re-joining this organization. It will take time for the word to spread that METCA is back. I have taken a thirteen-week ad in Coin World under item 120. Those of you in local, state, or regional clubs who wish METCA application forms and copies of Trade Token Topics to be sent to your club, please drop me a line.

I want to extend my appreciation to those of you who have sent notes of appreciation and warm regards. I appreciate those members who have volunteered to assume new responsibilities with METCA. I have a number of areas of responsibility I will delegate in the near future, and I certainly will consider many of you who have expressed an interest in actively participating in METCA.

Thanks, too, to those of you who have taken out paid ads to help underwrite METCA's resumption.

NOTES ON HISTORIC PORT HADLOCK, WASHINGTON, AND THE COMMERCIAL HOTEL

Bud Kannenberg Metca #323

Mr. Samuel Hadlock was born in New Hampshire in 1829. He was a gold miner, stock broker, sawmill builder and operator. In 1870 he purchased 400 acres of land from the Government. On this site on the Olympic Peninsula Mr. Hadlock started the town of Port Hadlock and was instrumental in constructing a large saw mill, known as the Washington Mill Co. This mill furnished lumber used in the building of Fort Casey, Fort Worden and Fort Flagler, part of the historic Puget Sound defense system. Clustered around the mill were bunkhouses, workers homes, the Commercial Hotel and the Hadlock House and misc. other establishments.

Old timers state that the longshoremen favored the Commercial Hotel and the sailors the Hadlock House.

Mr. Charles Blake has stated, "William (Billy) Niemeyer and his wife ran the old Commercial Hotel and whether they knew it or not, they had a very generous bartender. The hotel was built on a dock over the water. When the tide went out the longshoremen would tie a bucket beneath the pipe that led from the sink in the bar. The bartender would leave the spigot open a little and they had all the beer they could drink."

William Korter later managed the Commercial Hotel and the Korters also had saloons in Port Townsend.

The Washington Mill burned in 1913 and the town started going down hill. The Guilford Clam Cannery took over the Commercial Hotel. Then later it was taken over by the B. O. Kem fertilizer factory, and after that failed, the old hotel was torn down.

We have four Hadlock tokens in our collection: Commercial Hotel, Hadlock, 5¢ octag. alum., a variety of the same; a brass octag. Korter Bros., Port Hadlock, Wn. 5¢; and an alum. Hadlock House, 5¢.

TRADING LIST

I collect merchant tokens from the towns of Dayton, Waitsburg, Starbuck, Pomeroy, Asotin, and Prescott, in the state of Washington. The following list of tokens are for trade for my six towns. I need a lot of common die varieties from familiar tokens from these towns, so please list what you have. I am receptive for multiple trades, three-way, any way we can work out that will be mutually beneficial to all parties concerned.
